

A.

**What is the
problem?**

**Why is this
a problem?**

**What causes
it?**

- 1. Form a group of no more than 16 people around this barrier.**
- 2. Write in the name of the barrier on the numbered sheet.**
- 3. Take one 'Unpick barrier' A4 sheet each.**
- 4. When you hear the sound individual thinking time starts. Without talking to each other, write up to 6 post-its describing the problem. (3 mins)**
- 5. When you hear the sound, form groups of 4–5 people and discuss what you wrote on your post-its. Come up with 5–10 summarising post its. (10 mins)**
- 6. When you hear the sound, come together as a group around the barrier and group and sort your post-its together. Put headings on your groupings. (10 mins)**

B. How could you overcome the barrier?

7. Turn your sheet over.

8. When you hear the sound, quiet thinking time starts again.

Individually write up to 6 post-its describing how you might overcome the barrier. Use post-its of a different colour. (3 mins)

9. When you hear the sound, form groups of 4–5 people and discuss what you wrote on your post-its.

Come up with 5–10 summarising post its. (10 mins)

10. When you hear the sound, come together as a group around the barrier and group and sort your post-its together. Add concrete examples of the approaches using post-its of another colour. (10 mins)

C. Sketch some solutions!

10
min

11. Individually, take a blank A4 sheet. Fold it in half 3 times.

12. Look at the barriers and possible ways to overcome them. When you hear the sound, try sketching eight distinct ideas in eight minutes – one in each of the segments on your paper.

(They don't have to be perfect, go a little crazy) (8 mins)

13. When you hear the sound, share your ideas with the person next to you. Stick your sketches sheets up on the wall.
